RES in Ireland

RES is a privately-owned company with a proud history across the island of Ireland.

From our Larne office we have been developing, constructing and operating energy projects since the early 1990s. This includes the development and construction of the Gorman Energy Storage System in Co. Meath and the Avonbeg and Gorey Energy Storage Systems in Co. Wexford.

RES has been working in the battery energy storage market for a decade and design safe storage projects using proven Lithium iron phosphate technology. Across the UK and Ireland, RES has developed over 700MW of battery energy storage projects, and we currently manage over 600MW of operational storage projects with 24/7/365 monitoring provided from our control centre in Glasgow
